

utilized independently, or as an addition to an existing facility, and can be considered as a separate entity for purposes of evaluation.

Signatory party. The States of Maryland and New York, the Commonwealth of Pennsylvania, and the United States of America.

Signatory state. The States of Maryland and New York, the Commonwealth of Pennsylvania.

Sponsor. Any person or governmental entity proposing to undertake a project. The singular shall include the plural.

Surface water source. Any river, perennial stream, natural lake or pond, spring, wetland or other body of surface water situated in the basin.

Susquehanna River basin. The area of drainage of the Susquehanna River and its tributaries into the Chesapeake Bay to the southern edge of the former Pennsylvania Railroad Bridge between Havre de Grace and Perryville, Maryland.

Water(s). Surface and ground water(s) contained within the Susquehanna River basin either before or after withdrawal.

Withdrawal. A taking or removal of water from any source within the basin for use within the basin.

§ 803.4 Projects requiring review and approval.

(a) The following projects are subject to review and approval by the commission and require an application to be submitted to the commission in accordance with the procedures outlined in § 803.23:

(1) Projects on or crossing the boundary between two signatory states;

(2) Projects involving the diversion of water;

(3) Projects resulting in a consumptive use of water exceeding an average of 20,000 gallons per day (gpd) for any consecutive thirty-day period or such other amounts as stipulated in § 803.42;

(4) Projects withdrawing in excess of an average of 100,000 gpd for any consecutive thirty-day period from a ground-water or surface water source or such other amounts as stipulated in §§ 803.43 and 803.44; and

(5) Projects which have been included by the commission in its comprehensive plan.

(b) Sponsors of projects who feel that their projects are likely to be classified as requiring the commission's approval may request that the executive director waive the "request for determination" procedure and may thereafter proceed directly to the filing of an application for approval.

§ 803.5 Projects which may require review and approval.

The following projects, if not already covered under § 803.4, may be subject to commission review and approval and require, in accordance with the procedures outlined in § 803.22, a "request for determination" to be submitted to the executive director:

(a) Projects which may change interstate water quality standards or criteria.

(b) Projects within a signatory state that have the potential to affect waters within another signatory state. This includes but is not limited to projects which have the potential to alter the physical, biological, chemical or hydrological characteristics of water and related natural resources of interstate streams designated by the commission under separate resolution.

(c) Projects which may have a significant effect upon the comprehensive plan.

(d) Projects not included in paragraphs (a) through (c) of this section, but which could have an adverse, adverse cumulative, or interstate effect on the water resources of the basin; provided that the project sponsor is notified in writing by the executive director that it shall submit a "request for determination".

§ 803.6 Concurrent project review by signatory parties.

(a) The commission recognizes that agencies of the signatory parties will exercise their review authority and evaluate many proposed projects in the basin. The commission will adopt procedures to assure compatibility between signatory review and commission review.

(b) To avoid duplication of work and to cooperate with other government

agencies, the commission may develop agreements of understanding, in accordance with the procedures outlined in this part, with appropriate agencies of the signatory parties regarding joint review of projects. These agreements may provide for joint efforts by staff, delegation of authority by an agency or the commission, or any other matter to support cooperative review activities. Permits issued by a signatory agency shall be considered commission approved if issued pursuant to an agreement of understanding with the commission specifically providing therefor.

§803.7 Waiver/modification.

The commission may, in its discretion, waive or modify the requirements of this part if the essential purposes set forth in §803.2 continue to be served.

Subpart B—Application Procedure

§803.20 Purpose of this subpart.

The purpose of this subpart is to set forth procedures governing applications required by §§ 803.4 and 803.5.

§803.21 Preliminary consultations.

(a) Any sponsor of a proposed project that is or may be subject to the commission's review jurisdiction under §803.4 or §803.5 is encouraged, prior to making application for commission review, to request a preliminary consultation with the commission staff for an informal discussion of preliminary plans for the proposed project. To facilitate preliminary consultations, it is suggested that the sponsor provide a general description of the proposed project, a map showing its location and, to the extent available, data concerning dimensions of any proposed structures and the environmental impacts.

(b) Preliminary consultations shall be optional with the project sponsor and shall not relieve the sponsor from complying with the requirements of the compact or with this part.

§803.22 Request for determination.

(a) Sponsors of projects which may require review and approval, as described in §803.5, shall submit a "request for determination" to the execu-

tive director with such accompanying information and data as the executive director shall prescribe.

(b) If a project sponsor is uncertain whether a "request for determination" should be filed with the commission, the sponsor may ask for and, within thirty days after submission of information in such form and manner as will allow the executive director to make a decision, receive from the executive director a letter stating whether a "request for determination" should be filed. The executive director may also direct a project sponsor to submit a "request for determination."

(c) Within thirty days of the receipt of such "request for determination," the executive director shall determine whether the said project must be reviewed and approved by the commission. In making such determination, the executive director shall be guided primarily by his/her findings as to the following factors:

(1) Whether the proposed project will have a significant interstate effect on water supply, stream flows, aquifers, water quality, flooding, sensitive land areas, aquatic or terrestrial forms of plant or animal life, historical or cultural resources, or any other water-related resource.

(2) Whether the proposed project will have a significant impact upon the goals, objectives, guidelines, plans, or projects included in the comprehensive plan.

(3) Whether the proposed project may have an adverse or adverse cumulative effect on the water resources of the basin.

(d) The executive director shall notify the sponsor of the project, the agency of the signatory party, if any, reviewing the project, the governing body of each municipality and the planning agency of each county in which the project is located of his/her initial determination under this section. Notice to the sponsor shall be by certified mail, and to all other interested parties by regular, first class mail. At a cost to be assessed to the project sponsor, the executive director shall also publish in a newspaper of general circulation in that municipality, at least once, a notice of such determination. If no objection is made to
